### Trend in GST Collections in Rs crore

Note: Press Information Bureau

### Views:

- There has been consistent improvement in the collection of revenue since February 2023. This shows that growth momentum has been achieved despite lower rate prevailing in the economy. It also indicates robust growth in Indian economy based on strong pickup in consumer demand.
- Highest growth has been observed in State GST collections in absolute terms.
- With the continued focus on improving the system and processes and improving demand conditions, it is likely that collections will see further growth going forward.
- However, with base normalization GST collection may see some moderation in the coming months.
